

Watch the Silverware

764-HERO

All of a sudden it all goes black
Can't see the signs from out in back
It's out of focus way to go
Surveying layouts gun in tow

This season of looking down
Can't afford a new million
We get up
But we make it shine, forever

When after work has lost it's charm
You can't lose focus and trip alarms
You kept running out of bounds
You've got the goods now (unintelligable?)

Liver
The new silver
Liver
When you liver
Out in the sound

All of a sudden it all goes black
Can't see the signs from out in back
It's out of focus way to go
Surveying layouts gun in tow

This season of looking down
Can't afford a new million
We get up
But we make it shine, forever
