

Good Life

7eventh Time Down

In the end we win
whatcha fighting for
You try to hold us down
But that won't settle the score

Momentum running through our veins

You cannot stop us now
We won't give up the fight
We're swinging for the fence
When the lights go out tonight
So give us all ya got
We're never gonna stop
And when we hit bottom
We'll start climbing to the top
Of the good life

The city's in our sights
We're never turning back
We'll keep pushing forward
We'll carry on

Momentum running through our veins

You cannot stop us now
We won't give up the fight
We're swinging for the fence
When the lights go out tonight
So give us all ya got
We're never gonna stop
And when we hit bottom
We'll start climbing to the top
Of the good life
