

# Kingdoms

## 7eventh Time Down

How did we get here?  
Where did we go wrong?  
Yelling at each other  
Every time we talk  
How come together  
We feel so alone?

Picture perfect  
Is where we started off  
The frame is broken  
Somehow our dreams got lost  
But it ain't over  
God can restore it all

If we could break down  
These walls in between us  
And reach out  
To love like we mean it  
Lay down  
The weapons that are guarding our hearts  
And let our kingdoms fall

I don't need to be right  
Love is stronger than the fight  
We can start all over  
And let go of our pride  
It's not too late  
For us to change  
If we decide

If we could break down  
These walls in between us  
And reach out  
To love like we mean it  
Lay down  
The weapons that are guarding our hearts  
And let our kingdoms fall

We gotta learn to live in grace  
Look past each other's mistakes  
Whoa oh  
We gotta learn to walk with each other  
Together we can weather the storm

If we could break down  
These walls in between us  
And reach out  
To love like we mean it  
Lay down  
The weapons that are guarding our hearts  
And let our kingdoms fall
