

# This Christmas

## 7eventh Time Down

Not enough time to be  
Everywhere where I need to be  
Something doesn't feel right  
Looking at all of these presents underneath the tree

Have I forgotten love  
I think I've had enough  
It's finally time I do things differently  
And stop to breathe

This Christmas, I wanna get it right  
Be a light leading people through a dark night  
This Christmas I've got more to give  
I 'll tell the world there's a God who loves them  
Just a baby, but oh how He changed me  
The day Jesus saved my life  
This Christmas give me more of Christ

I try to so hard to understand  
The love my Savior showed when He became a man  
Three nails and a cross for me  
In a breath criminals became kings and

Have I forgotten love  
I think I've had enough  
It's finally time I do things differently  
And stop to breathe

This Christmas, I wanna get it right  
Be a light leading people through a dark night  
This Christmas I've got more to give  
I 'll tell the world there's a God who loves them  
Just a baby, but oh how He changed me  
The day Jesus saved my life  
This Christmas give me more of Christ

Have I forgotten love  
I think I've had enough  
It's finally time I do things differently  
And stop to breathe

This Christmas, I wanna get it right  
Be a light leading people through a dark night  
This Christmas I've got more to give  
I 'll tell the world there's a God who loves them  
Just a baby, but oh how He changed me  
The day Jesus saved my life  
This Christmas give me more of Christ
