Seventh Time Down

I know that look in your eyes
Cause I've seen it in the mirror
Far to many times
I know the war that you fight
But there's freedom waiting here
On the other side

When it feels like you're gonna lose
I'll be right there reminding you

We have power that overcame the darkness
The blood of Jesus is rushing through our veins
When we stand upon his word
We are more than conquerors
Every enemy will tremble at his name
He's undefeated
He's undefeated

The war is already won
All you have to do is trust
The one who overcomes

When it feels like you're gonna lose
Just remember who fights for you

We have power that overcame the darkness
The blood of Jesus is rushing through our veins
When we stand upon his word
We are more than conquerors
Every enemy will tremble at his name
He's undefeated
He's undefeated

No weapon formed against us
Could ever defeat us
No weapon formed against us
Could ever defeat us
Could ever defeat us

We have power that overcame the darkness
The blood of Jesus is rushing through our veins

We have power that overcame the darkness
The blood of Jesus is rushing through our veins
When we stand upon his word
We are more than conquerors
Every enemy will tremble at his name
He's undefeated
He's undefeated
He's undefeated
He's undefeated
He's undefeated
