

Economy the American dream  
Deciecing the world it's vanity seen  
Democratic a crook of shit  
Bush is a cunt a puss filled cyst

Power. greed. currupt and sick  
There's nothing but lies, scandal and shit  
Western bliss the illusion persists  
Political whores in betrayal exist

A f\*\*king clown a limp dick bitch  
Propaganda the subtle twist  
A Chelsea smile's what you need  
A megalomaniac on power you feed  
Manipulate. desecrate. deviod of peace  
There's too much hate  
Putrid sewage is what you talk  
You don't fool me with your media walk

Taken away. submit don't flinch  
Your bones will break and you'll  
Suffer the pain  
Suffocating. dominating  
Scream. choke. bleed and die

USA a convict state  
An internal prison full of hate  
Emasculate every race  
Unaware they're all still slaves  
Bureaucracy controls your fate  
Subterfuge assassinates  
Obvious it's a f\*\*king lie  
Crawl out of my ass and get a life

Faceless. hatred. no shame  
Blood stains. no hope remains  
Kill me

"Intelligence" it's what you preach  
Nothing solved. it's too out of reach  
Desperate to catch your prey  
But he'll live to kill again
