So do what you doing it's right (Do that)  
Move how you moving it like that  
You ain't gotta put up no fight (Fight)  
Look good when you open up wider (Up wider)  
Don't speak a lot of English  
Even broken I kinda understand your signs  
Do you wanna be on my mind? (Mind)  
If you wanna stay that's fine

I, I, I want it girl  
Confidence in my karma  
I regret only saying what I wanted to do  
I was feeling obnoxious  
But I promise  
That the point of this (The point of)  
Is to run off with the poignant shit  
If you want you can make a new appointment  
And I'll show you what my employment is (Yeah)

Yeah, I never needed a girl (No)  
I never felt this type of way  
But I can see you a pearl  
Put it down on me and don't run away

Ya I'll fly to warmer weather  
And I just want us so together  
Cause you and I is so much better
