

## ELEVATOR FREESTYLE

80purppp

Step back into the zone  
Going back to the place I was before  
Open up another elevator door  
Is this your stop, or is it my floor?  
Whip your hair right back and forth  
I'm the mandolorian I don't need no force  
But may I hit it again on all fours  
I'll give it you because it's all yours

Is there a way to elevate your titties  
The way that they bounce I'm thinking about kiddies  
Not like that I'm thinking you have 'em with me  
Heard you a girl from the city  
Heard you girl you with a pretty mouth  
Itty bitty really and that's all I think about  
I came a long way from the paper route  
And it's funny cause I found another paper route

I love the way you swing back girl  
You live in such a great big world  
I want you all the time (time)  
Invite you back to mine (mine)

You had one song that went real big  
You cannot afford this shit  
Even though I still own my masters?  
Call me free I don't have no master  
Dropped out of school I don't have my masters  
Still educated though  
Still got etiquette though  
Still gonna stroke that pussy nice and slow  
Show you secret sides of me that really nobody else knows  
Flow so elemental  
And the last girl was like hella mental  
Act like elementary  
Rockin' a show now I feel so sedimentary  
Feel so metamorphic  
All of the competition should just forfeit

I love the way you swing back girl  
You live in such a great big world  
I want you all the time (time)  
Invite you back to mine (mine)
