

East and the west, I'm rackin' up all my bread, uh  
Power on me, I'm feelin' just like a Tesla  
Too much tree, the smoke is makin' my chest hurt  
Girl on me, I'm thinking I should arrest her  
Ayy, I'm thinking I should arrest  
All night long she puttin' me to the test  
Got a lot on, I'm tryna take off the rest  
Cleaning up my lines, I say nothin' but the best

Hey girl, you're the cutest that I see  
So bright I'm not using my visine  
Gotta get it likely or I'm ending my life, see  
So beautiful like outta my dreams  
Hey boo, I'm hollering at you  
Not rude, I'm just tryna be yo' dude  
So what I gotta do just to see how that ass move?  
So beautiful, sorry to be crude

Yo B, I'm makin' the next move  
And know me, I'm nothing but just smooth  
Low seats, I'm settin' the right mood  
All these other rappers, they talking, they just food  
I'm talking to just you  
You talking to one dude  
You rockin' with one dude  
And if I get it right, then I'll turn off the lights soon

Hey girl, you wanna be my world  
Get showered with diamonds and some pearls?  
Not trying to make you my night girl  
Imma treat you right like I'm a knight girl  
Hey fam, I'm tryna be your man  
Me talking to you is God's plan  
No, I do not want a one night stand  
Take you round the world, just grab on my right hand
