

release! (THE KRAKEN)

80purppp

Run from me, cause my honesty
They depart from, me, am I the problem?

Only thing I notice about being Peter man
People fly away from my soul in the Neverland
(I see jealousy)
People want advice, then ignore when I speak to them
Wonder if I lied to them all would I be a friend
(They depart from me)

Everything I do I do it smart, yet I fall apart
(So much dollar signs)
Everything you mean to me is true, but you break my, heart
(Why oh why oh why?)

People run from me
(I don't wanna be someone that sucks up)
Cause my honesty
(And I'm talking bout trust I ain't talking bout love)
Why they depart from, me
(Everyone wants out when the scene gets tough)
Am I the problem?
(Am I the problem?)

I swear the other day I coulda took a niggas girl
She is a new model and she travels round the world
(Should I tell him why?)
I wonder if I told this nigga what's about to happen
The whole ship boutta be a victim of the kraken

But he'll just run from me
And all my honesty
I might just fuck that pussy
And all my problems
