I ain't tryna crash my high, no
I ain't tryna crash
With my finger on dash
I can't look into the past
I don't even know the password
And I ain't even wanna know why
Yuh, u-n-i

There's no way there must've been a mistake
You say I'm the only one to blame and it's
Injecting every vein with your impurity
Keep lowering

Expectation, every expectation
Maybe if I fulfill it I'll be known in every nation
All of creation, dances
When the first flood came it made our masses
Trade every milestone for fun in gym classes

I ain't tryna crash my high, no
I ain't tryna crash
With my finger on dash
I can't look into the past
I don't even know the password
And I ain't even wanna know why
Yuh, u-n-i

There's no way there must've been a mistake
You say I'm the only one to blame and it's
Injecting every vein with your impurity
Keep lowering
