

## VALENTINE

80purppp

Move to the beat and dance with me nice and slow  
I like the way you wine that though  
I take a sip but really I ain't used to heavy drinking  
I don't know what's behind that door  
Wanna, wanna, hit the marijuana  
Tell me what you gonna do  
To me off the ganja

All through the night we can fight light  
Smoke till the sun up freeing my mind  
All for the colour I'm seeing white lines  
Are yall seeing double? Club full of models  
Pass me the bottle  
I don't even do this shit way too much  
Now we going full throttle  
Don't remember my name

Just take a look and baby girl you gon see  
There ain't no other guy like me  
I got an extra ticket to my own show  
If you give me a private screen  
Doctor, doctor, will you please just tell me  
What am I supposed to do when nobody helps me

Time, is all mine  
Time, is all mine

All of the alcohol in this fucking club  
I really wanna take this dub  
I didn't know how low I'll go when I'm drinking  
I'm willing to deny that though  
Father, father, please do not forsake me  
If you really love me then  
Lift me up and save me

I fly  
Away  
My lies  
Escape me  
I try  
To make my way  
To a better
