

Here's to That Innocence

88 Fingers Louie

Do you remember wasted time
Time was all we had
Sat there and smoked your cigarettes
It meant nothing for me

Biggest worry we all had
Was just a passing fad
Greek fire to a hammer and stay
Every day

Let's raise a glass to days gone bye
Just wish I couldn't say goodbye
Here's to that innocence
The day goods come to mind
I only wish you had that drive

Years went by and separately
A pass with different ways
I married young, you married old
But the music remained
I wish I wasn't too busy
To check on how you've been
Those memories of Nickel Bay
I'll keep remembering

Let's raise a glass to days gone bye
Just wish I couldn't say goodbye
Here's to that innocence
The day goods come to mind
I only wish you had that drive

I'll keep that innocence alive
That you kept bottled up inside
There's no more innocence inside
When you lost that drive

Let's raise a glass to days gone bye
Just wish I couldn't say goodbye
Here's to that innocence
The day goods come to mind
I only wish you had that drive
