

# Memories Faded Interlude

(1K)

Memories that I have for you are faded  
Get back to you when I made it  
And the road always leads back to you when I'm faded  
Yeah, wish I need you now  
Ooh, ooh, ooh  
Wish I need you now

This that purple haze that got my eyes so low  
Feel like I'm still with you when I fly solo (Still)  
One day you'll never make me smile no more (Still)  
For real, I lost one, and got five more hoes  
I'm not recently single, bitch, it's been over  
Bring some, bring some, bring some friends over  
Stackin' my chips like Pringles, bitches bend over  
For real, already knew the deal when my Benz drove up  
Bust down chain, she ring, you know it been froze up  
Try to snipe my ting but she been chose up  
Dabbin' on the eyes you know why (Yeah)  
Said when I leave you, feel the drugs, but I lied

Memories that I have for you are faded  
Get back to you when I made it  
And the road always leads back to you when I'm faded  
Yeah, wish I need you now  
Ooh, ooh, ooh  
Wish I need you now  
Ooh, ooh, ooh  
Wish I need you now

Used to be home, nowhere to go, alone all by myself  
Numbers, they be diallin', crowds, they be arrivin'  
Now I'm covered with these diamonds, Stoney, Heart, we grindin'  
Barely hittin' that gem, I buy these karats for my health  
Yesterday was cold, but today is something else  
Yesterday was cold, but today is something real  
Workin' they whole life just to feel the way I feel
