I feel the way
I feel the way
I feel the way
I feel the way

Hiding in the shadows
Making silhouettes
Even with my eyes closed
I see you
I can see my future
Coming up in gold
Feelin' for your passion, passion
You got full control

All I know
Our chemistry is undefeated
You walked away inside my heart
Love how your body is so cohesive
Show me your secret baby
I feel the way
I feel the way
You feeling yourself
Baby, I feel the way
You feeling yourself, feeling yourself

Feelin' for your passion
Feelin' for your passion

I can see my future
Coming up in gold
Feelin' for your passion, passion
You got full control

All I know
Our chemistry is undefeated
You walked away inside my heart
Love how your body is so cohesive
Show me your secret baby
I feel the way
I feel the way
You feeling yourself
Baby, I feel the way
You feeling yourself, feeling yourself
