

Wakin' up to the sounds of you loving me
Love in the shower and on the counter and on the table
You know how to throw down and that's everything
Coffee and waffles, eggs with the toast
I love it when you do the most

You like to act up when we don't spend time
Smacking your lips, yeah yeah
Throwin' those fits, yeah yeah
You like to act up, when we don't spend time
Smacking your lips, yeah
But I love a little trip

If I got plans then you got plans
If I got plans then you got plans
Tell your hatin' ass mans that you got a girlfriend
If I got plans and you got plans
If I got plans and you got plans

There's snow like a mountain
Face move like some whiskey
All you gotta do is hit me
And imma pull up on you
Eyes closed when I'm in you
Show me everything you're into
You learned everything from hindu
And it's working for you (working for you)

You like to act up when we don't spend time
Smacking your lips, yeah yeah
Throwin' those fists, yeah yeah
You like to act up, when we don't spend time
Smacking your lips, yeah yeah
But I love a little trip

If I got plans then you got plans
If I got plans then you got plans
Tell your hatin' ass mans that you got a girlfriend
If I got plans and you got plans
If I got plans then you got plans
If I got plans then you got plans
Tell your hatin' ass friends that you got a real man
If I got plans then you got plans
