Yeah

If I coulda seen the future, could I see myself circlin' the globe on a question for wealth?

Little nigga from the hood who just love to rhyme

That same love nowadays, nigga, hard to find

I got days when I wake up and it's hard to grind

God in my hear, the Devil on my mind

And as I roll up another one, walk into the booth

It don't sound like I wrote it down 'cause it be the truth

Help me or hurt me, I'ma sing it from the heart

Crocodile hunter still swimmin' with the sharks

Any beat I'm on, still rip that bitch apart

I'm not a star, I got a chopper in the car

In Memphis, I'm not the king, nigga, I'm the GOAT

Obama, presidential nigga, check the votes

Paintin' perfect pictures every word that I wrote

And never really cared if you like or you don't

It's 8Ball

It's my life and my life is timeless

I'm here forever, legends live on

And on and on

It's my life, my life is timeless

It's music forever

I will never change

And you will always know my name

Timeless, timeless, my life is timeless

My music is timeless, my money is timeless

Full speed ahead, mane, that's where you can find us

Space Age 4 Eva, mane, haters get behind us

Timeless, timeless, my life is timeless

My music is timeless, my money is timeless

Full speed ahead, mane, that's where you can find us

Space Age 4 Eva, mane, haters get behind us

Timeless, timeless, timeless, timeless, timeless

I just keep grindin'

Timeless, timeless, timeless, timeless, timeless

I just keep grindin'
