

On a Silent Night

8mm

On a silent night in this lonely town
Push my feet on the cold ground
Why am I runnin'... wish I knew

Fall on my knees to hear the angels sing
But what they're saying ain't gonna bring
You any closer, closer to me

On a silent night the streets ring with the sound
That echoes around and around
It's drowning me out

Just a silent night in the frozen air
There must be carolers somewhere
Singing Peace on Earth, Good will to men

Fall on my knees to hear the angels sing
But what they're saying ain't gonna bring
You any closer, closer to me

On a silent night the streets ring with the sound
That echoes around and around
It's drowning me out

A chorus of rhymes over the telephone lines
A dial tone only reminds me
I'm so far away from you

Red and green and blue

Merry Christmas to you

Merry Christmas to you
