

Tonight's the night
 For us to dance until the sun rise
 Side by side
 We're making shadows in the moonlight
 You can feel it in the air
 Rhythm takes you everywhere
 If you just let it go
 Take this party everywhere
 Party like a billionaire
 Just lose control - let the music know
 Just let the music know-oh
 Only you can make me feel alive
 Feel aliiiiive
 You spark up the night like a million lights
 Like we're living in paradise
 Oh woah, oh woah, oh woah oh
 Like we're living in paradise
 Oh woah, oh woah, oh woah oh
 Like we're living in paradise
 When the beats collide
 With the bass in overdrive
 The melody electrifies
 That's when the music comes to life
 (That's when you) You can feel it in the air
 Rhythm takes you everywhere
 If you just let it go
 Take this party everywhere
 Party like a billionaire
 Just lose control - let the music know
 Just let the music know-oh
 Only you can make me feel alive
 Feel aliiiiive
 You spark up the night like a million lights
 Like we're living in paradise
 Oh woah, oh woah, oh woah oh
 Like we're living in paradise
 Oh woah, oh woah, oh woah oh
 Like we're living in paradise
 With the music on
 We live in a world with nothing on
 Let the beat take you on
 The music knows where you belong
 Only you can make me feel alive
 Feel aliiiiive
 You spark up the night like a million lights
 Like we're living in paradise
 Oh woah, oh woah, oh woah oh
 Like we're living in paradise
 Oh woah, oh woah, oh woah oh
 Like we're living in paradise
