

## FOUR OF A KIND

93FEETOFSMOKE

I said I loved you and I meant it  
Everything I ever said, never telling you again  
Oh, I think I might regret it  
When I'm lying in your bed and you're getting out your head

'Cause it hurts me when we open up  
Show your hand, I'll fold it up  
Queen of broken hearts  
Oh make me flushed  
I guess I didn't hide enough  
I guess I didn't hide enough  
I-I-I guess I didn't hide

Play me like you want  
Please don't be the one  
Who got away, who got away

Put on my poker face  
Try hard to keep it straight  
Show hands when it's too late  
Play 'til the table breaks  
I know it's hard enough  
To finally call my bluff  
Just keep the blinders on  
Show face, but not too much

'Cause it hurts me when we open up  
Show your hand, I'll fold it up  
Queen of broken hearts  
Oh make me flushed  
I guess I couldn't hide

Play me like you want  
(Play me like you want)  
Please don't be the one  
Who got away, who got away  
Play me like you want  
(Play me like you want)  
Please don't be the one  
Who got away, who got away

Never get away, never get away baby  
Come on, play me, "love you", change me  
Never get away, never get away baby  
My heart racing

Play me like you want  
(Play me like you want)  
Please don't be the one  
Who got away, who got away

Play me like you want  
(Play me like you want)  
Please don't be the one  
Who got away, who got away

I just hope you're not too tired

To see this game play through  
'Cause anything could happen  
Four of a kind and we all still lose

I never wanted this to retire  
But I'm not surprised it's true  
'Cause anything could happen  
Four of a kind and we all still lose
