

I've Been Outside

93FEETOFSMOKE

Bitch I've been outside
Like I'm from new york
Heard you wanna fight
Boy you must be high

Bitch I've been outside
Like I'm from new york
Heard you wanna fight
Boy you must be high

Face it
Doomed to run it up
Inside a basement
Wasted
Wasting all the time
I'm getting wasted

Face it
Doomed to run it up
Inside a basement
Wasted
Wasting all the time
I'm getting wasted

Think it's caught up with my body
It's all of the medicine
All of the medicine now

Light that boy up
Thomas and Edison
If you miss me
You should know it gets worse
I can't fix everything
Some people hurt
Never knew me
Ain't no weight
In your words
And its two for the feature
And three for the verse

Bitch I've been outside
Like I'm from new york
Heard you wanna fight
Boy you must be high

Bitch I've been outside
Like I'm from new york
Heard you wanna fight
Boy you must be high

Too much going down deep
Too much and it's taking over
I tend to bite my tongue
Until my stars align together

Too much going down deep
Too much and it's taking over

I tend to bite my tongue
Until my stars align together
