

Miss My Call

93FEETOFSMOKE

I know you sleep alone, can I help that?
Heard your sick of love, can I stop that?
And if I hit your phone, would you text back?
And if you missed my call, would you ring back?

I know you sleep alone, can I help that?
Heard your sick of love, can I stop that?
And if I hit your phone, would you text back?
And if you missed my call, would you ring back?

God damn, started feeling like the old me
All this cash couldn't stop me feeling lonely
Still sad, making stacks, no split, no team
I don't wanna die, but I don't wanna be me

Nowadays, dry phone, default background
4 AM, lost and drunk in your hometown
Plenty drugs I don't want in my face in my face now
(Plenty drugs I don't want in my face in my face now)
