

scraped my knee on accident (pt. iii)

93FEETOFSMOKE

Threw away my weed on accident
Then I fell asleep on accident
Trippin' acid with my dad on accident
Oops, I just got sad on accident
Fell asleep at the wheel on accident
Hoping I don't cause an accident
Just fell down the stairs on accident
Forgot you don't care on accident

Ten toes up I tripped on the bottle
Hope you don't notice
I cracked my phone screen on the sidewalk
Just recycled my passport, the sun burnt the dashboard
My transmission broke and I almost got in a car accident
I-I-I-I accidentally know
I know way too much
I know way too much
Oh nooooo
I accidentally know (trash man, trash man)
Throw me out, I came from the swamp
Track mud through the house

Threw away my weed on accident
Then I fell asleep on accident
Trippin' acid with my dad on accident
Oops, I just got sad on accident
Fell asleep at the wheel on accident
Hoping I don't cause an accident
Just fell down the stairs on accident
Forgot you don't care on accident

Trash man, trash man
Throw me out
I came from the swamp
Track mud through the house
Sandman, sandbox
Buried treasure

Trash man, trash man (and I don't need to)
Throw me out (fall against)
I came from the swamp (the wall)
Track mud through the house (and bruised my knee again)
Sandman, sandbox (And I don't need to fall against the wall)
Buried treasure (and bruised my knee again)
