

## The Fault In Stars

93FEETOFSMOKE

Its a fault of heart  
I've been dying to tell you  
Emotions left me scarred  
I've been leading the blind too

The sun will swallow earth  
We'll just turn to dust soon  
Wipe me off the window sill

It's the fault in stars  
We're just living to die too  
I'm upfront 'bout my scars  
And the battered bruises
