

# TOOTHPASTE

93FEETOSMOKE

Plant and sew until the field around my house  
Let the spring showers clear my chakras out  
'Cause once it's cut you can't just put it back in ground  
But I don't really wanna pick my flowers now

She left me roses  
Thorns I didn't notice  
Ripped my white tee  
Toothpaste clean bloody noses  
So stains stay out of focus  
Deep like swarms of locust  
Soil that'll give me life  
Can take the ones held closest

She left me roses  
Thorns I didn't notice  
It's the ones you hold the closest  
That you gotta watch the most  
It's a blessing and a curse  
But I can't be the first to notice

Stains stay out of focus  
White tee with bloody noses  
Think I have too much emotion  
Blessing and a curse  
But I can't be the first to notice

Whoa, I can't be the first  
No, I can't be the first  
No, I can't be the first to notice  
Whoa, whoa, no I can't, no I can't

Plant and sew until the field around my house  
Let the skeletons dance around town  
But I'ma dip once they start to hash it out  
'Cause I ain't really got a bone worth picking now

She left me roses  
Thorns I didn't notice  
Ripped my white tee  
Toothpaste clean bloody noses  
So stains stay out of focus  
Deep like swarms of locust  
Soil that'll give me life  
Can take the ones held closest

She left me roses  
Thorns I didn't notice  
It's the ones you hold the closest  
That you gotta watch the most  
It's a blessing and a curse  
But I can't be the first to notice

Stains stay out of focus  
White tee with bloody noses  
Think I have too much emotion  
Blessing and a curse

But I can't be the first to notice

(She left me roses)  
(She left me roses)  
(She left me roses)  
(She left me roses)

Whoa, I can't be the first  
No, I can't be the first  
No, I can't be the first to notice  
Whoa, whoa, no I can't, no I can't

She left me roses  
Watch it decompose  
It's nothing out of ordinary  
You already know this  
The ones you hold the closest  
You gotta watch the most  
Blessing and a curse  
I can't be the first to notice
