

## Can You Imagine

98 Degrees

We've been walking in the same situation  
We've been walking down the lonely road  
Try to find the world, what can I tell you  
All my feelings that you just won't let go  
And I don't know how, and I don't know why  
But I can't stop now until I make you mine

Can you imagine you and me  
Falling in love so tenderly  
Can you imagine that we are one  
That we are one  
Every moment goes by  
I find another reason why  
That you and I should be lost in love  
Can you imagine girl

Every night goes as I lay here dreaming  
I imagine that you are here with me  
Have to wonder do share this feeling  
Have you ever thought how we would be  
If you have a doubt  
I'll make it right  
Cause I can't stop now until I make you mine

I've been waiting for this perfect moment  
I've been waiting I'm so lost  
I gotta make you see that I need you here with me  
In my arms is where you belong

Baby lost in love
