

Christmas Wish

98 Degrees

Oh girl
Christmas ain't the same without you
Waiting for the day I'll see you again

It's Christmas night
I'm by the fireside
Wishing that you and I
Could share our love one last time
And baby I, I need you near me
Right here with me for eternity (oooh)
Exchanging gifts of warmth and tenderness
Holding you close, this is my Christmas wish

Christmas ain't the same without you
It just doesn't feel like it used to
Waiting for the day I'll see you again (until I see you again)
I hold my breath and pray to the stars for you till then

Baby I have some mistakes that I do regret inside
(Why can't we give one more try?)
I loved you girl with all my heart
Right from the start
Thought we'd never part (oh no)
Craving your touch and your eternal bliss
That is my only Christmas wish

(I hold my breath and pray to the stars for you till then)
(Christmas ain't the same without you, the same)
