

## I Wasn't Over You

98 Degrees

Girl no matter where I go  
I call you after every show  
In your voice I hear a funny tone  
Somebody's holding you  
Now you see me on TV  
I thought you'd be proud of me  
Somehow things have changed

I wasn't over you  
I was away from you  
And now you left me  
When sky's are gray

When I'm on stage with 98 Degrees  
Trying to make loot for you and me  
City to city, you're on my mind  
Tell me baby baby, who's got my time  
All I do, I do for you  
Now look what you put me through  
My heart is hurting from you

Baby all I wanna do  
Is be the one that's  
there for you  
And hold you when  
It seems like times are bad  
Girl this love is just too good  
Fo me to let it go
