

# Stranger Things (Have Happened)

98 Degrees

Me

Falling in love with you  
Stranger things have happened  
Stranger things have happened

No one understands it  
No one understands the things I do  
To be with you  
You're from another planet  
But no one speaks my language like you do  
Like you do (oh oh)

Maybe I'm going crazy  
Maybe you're gonna make me lose my mind  
Oh my mind (yeah)  
Baby that doesn't phase me  
Cause the moment I look into your eyes  
I can't deny it, baby it's

Me

Falling in love with you  
Stranger things have happened  
Stranger things have happened  
Than me  
Falling in love with you  
Stranger things have happened  
Stranger things have happened

No one understands you  
No one understands you like I do  
Like I do  
Baby I've been damaged  
But nothing ever hurts when I'm with you  
When I'm with you (oh oh)

Maybe I'm going crazy  
Maybe you're gonna make me lose my mind  
Oh my mind  
Baby that doesn't phase me  
Cause the moment I look into your eyes  
I can't deny it, baby it's

Me

Falling in love with you  
Stranger things have happened  
Stranger things have happened  
Than me  
Falling in love with you  
Stranger things have happened  
Stranger things have happened

Ooh, ooh, ooh  
Stranger things have happened  
Ooh, ooh, ooh  
Stranger things have happened

Maybe I'm going crazy

Maybe you're gonna make me lose my mind  
Oh my mind (yeah)  
Baby that doesn't phase me  
Cause the moment I look into your eyes  
I can't deny it, baby it's

Me  
Falling in love with you  
Stranger things have happened  
Stranger things have happened  
Than me  
Falling in love with you  
Stranger things have happened  
Stranger things have happened

Ooh, ooh, ooh  
Stranger things have happened  
Ooh, ooh, ooh  
Stranger things have happened
