

So many things that I wanna do  
A growing list of things to try  
So many people still to meet  
I only hope there's enough time

Making the most out of my drunk state  
???  
I'm searching for the ultimate high  
Until the day I die

We all want to, we all need to  
Start today, start right now  
It's time to be true, I wanna hear you  
Never will we ever be free  
Listen up now, I'm telling you to take control of your  
life

I've learned a lot from mistakes I've made  
I had my share of wasted days  
Too many long and sleepless nights  
This time I'm gonna get it right

I'm gonna find what I'm looking for  
The world awaits outside my door  
Will I fail or will I succeed?  
I guess we'll have to wait and see

We all want to, we all need to  
Start today, start right now  
It's time to be true, I wanna hear you  
Never will we ever be free  
Listen up now, I'm telling you to take control of your  
life
