

My Street Stinks

999

Narrow minds are everywhere
Someday its going to show
Follow anything at all
Belive all theyre told

My streets stinks
The world stinks too
And if you walked on my street
They're bound to hate you

Every problem that exists
Is living right next door
Being fed on how to be
By papers press and TV

Can't think for themselves
See all the rubbish they buy
But money can't change the way they think
Try and ask yourself why
