

## Come Alive with Me

### A Broken Silence

Wake from your slumber and breathe,  
To come alive with me  
Just come alive with me,  
Just come alive with me  
Wake from your slumber and breathe,  
To come alive with me  
Just come alive with me,  
Just come alive with me

Who leads the path you tread?  
You alone are the architect  
Just fish,  
Another target set  
Or be sinking to your darkest depths  
Be the light  
To your friends and peers  
You alone are the engineer  
Live a life no  
Stress, no fear  
Or regret it when the end is near  
Our souls looking  
For some pain relief  
A moment just to let  
The angels speak  
Stay in the present mentally  
'Cause pessimism's the enemy I told my kids at best we're free Many  
Seen death as a destiny I think of buddies that rest in peace We're  
So lucky, blessed to breathe

Wake from your slumber and  
Breathe, to come alive with me  
Just come alive with me,  
Just come alive with me  
Wake from your slumber and breathe,  
To come alive with me Just come alive with me Wake from your slumber  
And breathe, to come alive with me Just come alive with me,  
Just come alive with me Wake from your slumber and breathe,  
To come alive with me Just come alive with me,  
Just come alive with me

Who leads the path you tread?  
You alone are the architect  
Just fish,  
Another target set  
Or be sinking to your darkest depths  
Be the light  
To your friends and peers  
You alone are the engineer  
Live a life no  
Stress, no fear  
Or regret it when the end is near  
Drugs'll hook ya  
And they take their toll  
We escape 'til we comatose

Meditate,  
Re-awake your soul  
Retaliate and chase that gold  
Retaliate and break  
That mold  
We're not defined by millions kid  
Look who the man in the  
Mirror is  
Reflect, our time is an infinite

Wake from your  
Slumber and breathe, to come alive with me  
Just come alive with me,  
Just come alive with me  
Wake from your slumber and breathe,  
To come alive with me  
Just come alive with me  
Wake from your slumber  
And breathe, to come alive with me  
Just come alive with me,  
Just come alive with me  
Wake from your slumber and breathe,  
To come alive with me  
Just come alive with me,  
Just come alive with me  
So come alive with me,  
Yeah

Wake from your slumber and breathe,  
To come alive with me  
Just come alive with me,  
Just come alive with me  
Wake from your slumber and breathe,  
To come alive with me  
Just come alive with me  
Wake from your slumber  
And breathe, to come alive with me  
Just come alive with me,  
Just come alive with me  
Wake from your slumber and breathe,  
To come alive with me J  
ust come  
Alive with me, just come alive with me
