

Just Better

A.C.E

One day with me
Change your whole life around
Know what I mean yeah

I mean baby I know
It's a funny old situation
Cause you been tryna tell me you're in love
And like
Baby I'm not buying it

(No!) If you need a real man baby
(No!) I can do it so much better
(So!) When you need a superhero
Call my name and I'll be around

Yeah yeah yeah yeah yeah
When you need me call me I'll run
Yeah yeah yeah yeah yeah
Like a boyfriend but just better

Yo!
You been sick of dancing for the others
You been tryna fly out to the Oscar's
Cause baby you been looking so amazing
And your boyfriend looking so replaceable

It should be me and you
I can figure out why you won't
Just leave him and give us a try

Girl your eyes tell me you're already mine
And I'm not buying it

(No!) If you need a real man baby
(No!) I can do it so much better
(So!) When you need a superhero
Call my name and I'll be around

Yeah yeah yeah yeah yeah
When you need me call me I'll run
Yeah yeah yeah yeah yeah
Like a boyfriend but just better

Baby you and I could spend a day
Tryna reach a place to fly away
I don't want to wreck a happy home
But I just don't see one here

Got you all wrapped up in your fantasy
It might fool you but it won't fool me
I just want you to feel real love
Girl I beg you to try

When you lie and say he gives you butterflies
I'm still not buying it

(No!) If you need a real man baby

(No!) I can do it so much better
(So!) When you need a superhero
Call my name and I'll be around

Yeah yeah yeah yeah yeah
When you need me call me I'll run
Yeah yeah yeah yeah yeah
Like a boyfriend but just better

I devoted my time
I'll give you all my love just give it a try

Cause when you're with your boyfriend
Doing nothing
I'm feeling like you and I could take it one
So baby don't just say

(No!) If you need a real man baby
(No!) I can do it so much better
(So!) When you need a superhero
Call my name and I'll be around

Yeah yeah yeah yeah yeah
When you need me call me I'll run
Yeah yeah yeah yeah yeah
Like a boyfriend but just better
