

Supernatural

A.C.E

Can you tell me what's really going on
Can't put it into words
You know that you dropped a bomb
Inside my heart
So irresistible

I bet you are not from earth
Ooh, I'm sensing
I think you got a magic
I can't explain
Ooh, I like your style
Hey girl, let's take a dive (whoo!)

I'm so drawn into your mystical new world
When you touch me, it feels so electrical

Feels like a dream
I'm so lost now
You give me chills and thrills
Like a wild ride

When we meet eye to eye
All my doubts are fading away
Supernatural

I'll never let you go
You light me up
Like angels do
It's incredible
Floating on clouds
Just you and I

I don't know what's right or wrong
But I know I want your love
Coming back
So spread your wings
I'm moving fast
'Cause it's supernatural

'Cause it's supernatural
So supernatural
'Cause it's supernatural

You know I'd give everything if you let me
Got what you need no need to second-guess me
I'm gonna run like a winner
You make me stronger
I'll make that move
Can you feel me?

I'll make it rain
With my love like a hotshot
Open the door
Hit the floor
We can cha-cha

When you are by my side

Ain't no fear and no need to hide
I feel alive every day

I'll never let you go
You light me up
Like angels do
It's incredible
Floating on clouds
Just you and I

I don't know what's right or wrong
But I know I want your love
Coming back
So spread your wings
I'm moving fast
'Cause it's supernatural

'Cause it's supernatural
So supernatural
'Cause it's supernatural

Come a little closer, baby
Way to go!
Nothing's impossible
I'm wishing I could get another
Taste of you
Can't get enough...

I'll never let you go
You light me up
Like angels do
It's incredible
Floating on clouds
Just you and I

I don't know what's right or wrong
But I know I want your love
Coming back
So spread your wings
I'm moving fast
'Cause it's supernatural

'Cause it's supernatural
So supernatural
'Cause it's supernatural
