Oh □ □□ □□□ □□ □ □□
My love
Everyday everywhere
Everything about you and I
I know your mind

My heart pounds the moment we meet eyes, ooh yeah
A strong shiver that I've never felt before comes to me

For you, I can go anywhere
Because the prettiest flower is always far away
Will you stay like that for a bit?
If you can hear my voice
I will call out to you, ooh yeah

I see you twinkling in loneliness
So I'm callin
I looked for you to sing this song
Joyful and pretty, you are
The wind blows with my longing for you
Look at me

Oh oh baby take me higher
You're so beautiful, so dazzling
So baby take me higher
Thank you so much, you're the reason for my existence

I feel happiness right now
My entire body is trembling
Everyday everywhere
Everything about you and I
My choice is my life

It's so strange
The moment your scent reached me
It was so new, I fell into a world
I never experienced before

The sky is like a purple perfume

So wonderful
I feel like I'm bewitched
Making love holic
The scent of heart fluttering feelings fly about like flowers
Come follow me

Oh oh baby take me higher
You're so beautiful, so dazzling
So baby take me higher
Thank you so much, you're the reason for my existence

I feel happiness right now
My entire body is trembling
Everyday everywhere
Everything about you and I

I'm about to go see you
I'm filled with butterflies, you probably don't know
Every night, I call you
My feelings for you grow every day, baby
Without knowing
I'm strangely pulled
I met you by coincidence
And I can't escape you

I want you I need you
Say you love me say you love me
I love you I miss you
Say you love me say you love me
You can take me higher

Baby take me higher
I'll go a little closer to you
So baby take me higher
I want to feel you a little more

Oh feels like this moment has stopped
My love
Everyday everywhere
Everything about you and I
I know your mind
