

Girlfriend

A Change of Pace

Hey buddy are you still that dick I knew from school?
Or have you found out yet you were never that cool?
You know you made my high school days a living hell
But it's coming back to you and you can't even tell

Cars drop money, you've got 'em yeah it's true
But I've got more than you

You had your fun but I just stole your girlfriend
Now you're, now you're finally gonna see
You had your run but seems I stole your girlfriend
Now you're, now you're wishing you were me

Oh oh oh

You're looking pissed off don't tell me you're surprised
Cause here's the kicker, I'm not the only guy
So go on happily with your Mercedes life
But just remember I've got the better ride

She's built for comfort and knows her way around
We'll be tearing up the town

You had your fun but I just stole your girlfriend
Now you're, now you're finally gonna see
You had your run but seems I stole your girlfriend
Now you're, now you're wishing you were me

Don't feel so bad about it
I know you'll feel sad about it
You know you'll survive without it
But I'll have all the fun

Oh, yeah yeah yeah, whoa oh oh

You had your fun but I just stole your girlfriend
Now you're, now you're finally gonna see
You had your run but seems I stole your girlfriend
Now you're, now you're wishing you were me

You had your fun but I just stole your girlfriend
Now you're, now you're finally gonna see
You had your run but seems I stole your girlfriend
Now you're, now you're wishing you were me
Now you're, now you're wishing you were me
Now you're, now you're wishing you were me

Oh!
