

# Safe And Sound In Phone Lines

## A Change of Pace

I found out what I've been missing  
You are enough to keep me wondering through the nights that I've spent  
Alone  
Alone  
In hotels we are only voices  
Kept safe and sound in phone lines  
The distance makes the stronger weaken  
So many days we'll never know

Don't give away what we've, tried so hard to keep

All things aside  
I will be enough for you  
Afraid or not  
I will be enough for you  
When I am gone  
I will be enough for you  
All things aside  
I will be enough

The road we take will be the long one  
So hold on tight, don't leave me  
Take my hand, I'll bring you safely  
To home  
Your home  
Across the country this I promise  
I'll be back to take you on a trip to sunny, sanded beaches  
But first we've gotta meet halfway

Don't throw away love we've, worked so hard to make

All things aside  
I will be enough for you  
Afraid or not  
I will be enough for you  
When I am gone  
I will be enough for you  
All things aside  
I will be enough

So don't worry about time  
It's not on our side  
It never was before  
Just forget about time  
It's not on our side  
That's never stopped us before, before

All things aside  
Will I be enough for you?  
Afraid or not  
I will be enough

All things aside  
I will be enough for you  
Afraid or not  
I will be enough for you  
When I am gone

I will be enough for you  
All things our side  
I will be enough for you...
