

# Where Do I Go From Here

## A Change of Pace

I've gotten so sick of wasting everything  
... than watching life go by  
Somebody please come and save me  
Cuz I feel so pathetic everyday and night

Where do I go from here  
It's time for me to choose  
Cuz I've given everything that I have  
Now I got nothing left to lose  
Where do I go from here  
It's time to make a move  
And nothing's gonna stop me  
Cuz I got nothing left to lose  
Where do I go from here

Locked up in my room for three days  
Just waiting for something, please,  
Anything to change  
My friends say I'm going crazy  
Cuz I put all my time here to getting away

Where do I go from here  
It's time for me to choose  
Cuz I've given everything that I have  
Now I got nothing left to lose  
Where do I go from here  
It's time to make a move  
And nothing's gonna stop me  
Cuz I got nothing left to lose  
Where do I go from here

.... I can get  
I'd go any direction if I had one  
Cuz the first thing I'd regret  
Is just stoping  
I've come this far  
Makes me so high  
Makes me so high

Where do I go from here  
It's time for me to choose  
Cuz I've given everything that I have  
Now I got nothing left to lose  
Where do I go from here  
It's time for me to choose  
Where do I go from here  
It's time to make a move  
And nothing's gonna stop me  
Cuz I got nothing left to lose  
Where do I go from here

Where do I go  
Please tell me where do i go  
Where do I go from here

I've gotten so sick of wasting everything  
.. than watching life go by
