

## Used To This

A Common Year

We were caught  
Dancing in the streets  
While the rain put out the fires we set  
The night before  
And before we gave into  
All the things we had avoided  
I watched my inhibitions walk away

I could get used to this  
Acting without thinking  
Knowing that it's wrong to do  
But do it anyway  
I could get used to this  
Diving but not sinking  
Splashing into something new with you

"They'll never know," you said, "How we feel"  
And I said "Honey they would never understand"  
But I do believe that is what I prefer  
We can only stay this high  
If we let no one drag us down  
So if you'd like to stay with me you should

I could get used to this  
Acting without thinking  
Knowing that it's wrong to do  
But do it anyway  
I could get used to this  
Diving but not sinking  
Splashing into something new with you

I'll meet you at your window  
And we'll forget our age  
And dive into each other  
And hold our breath forever

I could get used to this  
Acting without thinking  
Knowing that it's wrong to do  
But do it anyway  
I could get used to this  
Diving but not sinking  
Splashing into something new with you
