

Everything We Need

A Day to Remember

At a certain speed on the interstate
Everything looks the same
The blurry green helps me meditate
When everything's always changing

I'm doing buck 20 on I-75, 75, 75
Just to see if I'm dead or alive
Dead or alive, dead or alive

Cause I know I got you
You know you got me
We got everything we need
We got everything we need
I know I got you (I know I got you)
You know you got me
We got everything we need
We got everything we need

I took a right down the boulevard
To see where we used to hang
It's worn down like the rest of us
But that's a quick coat of paint

I'm doing buck 20 on I-75, 75, 75
Just to see if I'm dead or alive
Dead or alive, dead or alive

Cause I know I got you
You know you got me
We got everything we need
We got everything we need
I know I got you (I know I got you)
You know you got me
We got everything we need
We got everything we need

When my minds racin'
Yeah, I just need some four wheel isolation
Cause Lord knows, I can't afford that vacation
And you can't see the skyline from the basement
Yeah, you always remind me
Yeah, you always remind me

(Ah, ah, ah)

I know I got you
You know you got me
We got everything we need
We got everything we need (We got everything we need)
I know I got you (I know I got you)
You know you got me (You know you got me)
We got everything we need
We got everything we need (Yeah!)

(Ah, ah, ah)
