

Make It Make Sense

A Day to Remember

I can't lie I'm a little bit off today
Cuz that black cloud hangin' around could be here to stay

Cuz everybody's tryna rain on my parade
Lotta talk but not a goddamn thing to say
I couldn't let that slide no not today

Why do we hurt everyone we love
Carry our pride like a loaded gun
Glass half full but it's never enough
Make it make sense
Make it make sense
Why do we wait when we can't rewind
Runnin' in place till we're outta time
You ain't gotta say but I gotta know why
Make it make sense
Make it make sense
I don't wanna

Why do I always take the high road
You can't shut your mouth
So let's burn it down boys
Cuz this whole things headed south

Why do we hurt everyone we love
Carry our pride like a loaded gun
Glass half full but it's never enough
Make it make sense
Make it make sense
Why do we wait when we can't rewind
Runnin' in place till we're outta time
You ain't gotta say but I gotta know why
Make it make sense
Make it make sense
I don't wanna

Everybody's tryna rain on my parade
Lotta talk but not a goddamn thing to say
I won't let that slide no not today

Why do we hurt everyone we love
Carry our pride like a loaded gun
Glass half full but it's never enough
Make it make sense
Make it make sense
Why do we wait when we can't rewind
Runnin' in place till we're outta time
You ain't gotta say but I gotta know why
Make it make sense
Make it make sense
Make it make sense
Make it make sense
Make it make sense
Make it make sense
Make it make sense
