

Same Team

A Day to Remember

You
You get me every time
I'm always
Disappointed but not surprised

I just wish that you could do better
Make good choices
Not be self-centered
The ones we love the most hold the sharpest knives

You always take, take, take what you want from me
Turn around and blame me
We ain't on the same team lately
Half price levels of loyalty, save it
Cause honestly that don't mean shit to me
The hurt you hide and then weaponize
Doesn't change who I'mma be
You always take, take, take what you want from me
We ain't on the same team, same team

Shh
Don't take it out on me
Cause we both know
There's demons lurking underneath

Yeah I just wish that you could do better
Make good choices
Not be self-centered
The ones we love the most hold the sharpest knives
No lie

You always take, take, take what you want from me
Turn around and blame me
We ain't on the same team lately
Half price levels of loyalty, save it
Cause honestly that don't mean shit to me
The hurt you hide and then weaponize
Doesn't change who I'mma be
You always take, take, take what you want from me
We ain't on the same team, same team

Accountability is not convenient
You made your choice
Face the consequence

Where's your L-O-Y-A-L-T-Y? (Loyalty!)
I'll spell it out for those who can't vibe
L-O-Y-A-L-T-Y (Loyalty!)
I'll spell it out for those who can't vibe

You always take, take, take what you want from me
Turn around and blame me
We ain't on the same team lately
Half price levels of loyalty, save it
Cause honestly that don't mean shit to me
The hurt you hide and then weaponize
Doesn't change who I'mma be

You always take, take, take what you want from me
We ain't on the same team, same team
