

Castles in the Sky

A Flock of Seagulls

I used to want to touch the sun
But it can't be done, you can't touch the sun
I used to want to walk on the moon
What a fool, I can not walk on the moon

Whoa
Just building castles in the sky
Whoa
You never know until you try

You said you wanna be just friends
But in the end, I can't just be friends
Cause every time I see your face
My heart aches, oh my heart aches

Whoa
Just building castles in the sky
Whoa
You never know until you try

Whoa
Just building castles in the sky
Whoa
You never know until you try
Whoa
Just building castles in the sky
Whoa
You never know until you try

I used to want to touch the sun
But it can't done, you can't touch the sun
You can't touch the sun
I used to want to walk on the moon
You can't walk on the moon
