Committed

A Flock of Seagulls

Take your time for book changing before rearranging Don't you know that it's cold in here ? It's been a long time since I've heard from you there Let me tell you about the place I live

Four walls and a wooden fence I get a letter from you every week You want to tell me it's a recommence When you're committed there's a hole in the wall

Committed And I'm bustling it all Committed There's a hole in your head Committed Makes me wish I was dead

Every day I walk in the field I see the grass and the trees so real I look up at the sky so blue I wonder why I never hear from you

Well I'm committed There's a whole in the wall Committed And I'm bustling it all Committed There's a hole in your head Makes me wish I was dead

Every day I exercise In a yard with a big high wall There's a man with a nice green coat He gets his pencils and he makes a note

And I'm committed There's a hole in the wall Committed And I'm bustling it all Committed Like a hole in your head Committed Makes me wish I was dead

Committed, committed Committed, committed Committed, committed
