

Pick Me Up

A Flock of Seagulls

You make me sweat with every word you say
Why don't you go away?
I never thought that you could understand
Or did you have it planned

I saw you on the street the other day
But you just turned away
You leave me lonely, sad, depressed, in gloom
Can't take my mind off you

I need a pick me up, pick me up
I need a pick me up, pick me up
I need a pick me up, pick me up
I need a pick me up, pick me up

I saw a friend of yours the other day
But she just turned away
I never thought that you could understand
It just got out of hand

I need a pick me up, pick me up
I need a pick me up, pick me up
I need a pick me up, pick me up
I need a pick me up

You make me sweat with every word you say
Why don't you go away?
You leave me lonely, sad, depressed, in gloom
Can't take my mind off you

I need a pick me up, pick me up
I need a pick me up, pick me up
I need a pick me up, pick me up
I need a pick me up
