

We Want It Back Again

A Flock of Seagulls

Half of the world is waiting
Just to see you smile
And all the time we wasted
We want it back again

You know that I'll be waiting
Just passing time
And all the love we wasted
We want it back again
We want it back again

We want it back again
We want it back again

You know my heart is breaking
The memories survive
And all the time we wasted
We want it back again
We want it back again
We want it back again
We want it back again

You know that I'll be waiting
Just passing time
And all the love we wasted
We want it back again
And all the love we wasted
We want it back again
