

# Oasis

## A Great Big World

Don't cry,  
You're mine  
For forever  
For forever  
I need  
You now,  
More than ever  
More than ever

Head full of lies  
Sun in my eyes  
You make it easy  
Don't look away  
These are the days,  
You gotta believe me!

When we're lost in a desert night  
and we're chasing our paradise  
When we can't fight another fight  
We're gonna make it,  
You're my OASIS  
You're my OASIS  
You're my OASIS  
You're my OASIS

This life  
Is made  
For each other  
For each other  
Crossed lines,  
Mistakes,  
There's no other  
There's no other

Head full of lies  
Sun in my eyes  
You make it easy  
Nowhere to go  
I'm already home,  
You gotta believe me!

When we're lost in a desert night  
And we're chasing our paradise  
When we can't fight another fight  
We're gonna make it,  
You're my OASIS  
You're my OASIS  
You're my OASIS  
You're my OASIS

As I roam through the wasteland,  
You're the one thing I need  
I see you off in the distance,  
You're my OASIS  
You're my OASIS

When we're lost in a desert night

And we're chasing our paradise  
When we can't fight another fight  
We're gonna make it, make it, make it make it  
When we're lost in a desert night  
And we're chasing our paradise  
When we can't fight another fight  
We're gonna make it, make it, make it, make it  
You're my OASIS  
You're my OASIS  
You're my OASIS  
You're my OASIS
