

All Alone

A\$H.

Can't miss this going all out all out
Time wasted throw it all out yea
I reminiscing oh wow oh wow
Diamonds in going all out yea
Got me head gone, lady no lie no lie
I feel the need, throw it all out yea
Old memories, stuck in my mind I take time

To laugh so hard I cried a bit all alone
I laughed so hard I cried a bit
To laugh so hard I cried a bit all alone
So hard I cried a bit all alone

Bet you feel bad you regret it
Took my body for granted yea
Calling my phone second chances
But you already know what the answer is
We just go back and forth babe
Then we go up and down
We keep coming back for more babe
We keep going round and round

And I cried a bit all alone
I laughed so hard I cried a bit
To laugh so hard I cried a bit all alone
So hard I cried a bit all alone

Can't let you go bye-bye baby
You stay on my mind
Don't wanna be all alone
I'll press rewind yea
Let's make this forever baby
You'll always be mine
The vibe feels right, stay up all night
We take our time

To laugh so hard I cried a bit all alone
I laughed so hard I cried a bit
To laugh so hard I cried a bit all alone
So hard I cried a bit all alone
