

Care

A\$H.

Watch me through the square
I don't even see you out there
Tryna to pick a side
Try to split up all the fan fair
I'm not one to diss
But you're giving me a hard time
Shake you out this trance
Run away from all the bad vibes

You make it hard to share
Tell me you're real out there
So used to all the fun
And then you're gone

You don't know to care
You forget I'm there
You don't know to care
You forget I'm there

Can I ask you out
Promise promise me you will stay
Singing all along
Undercover lovers these days
Give you one more chance
Sing it louder that you want more
Make you wanna dance
Like I made you wanna before

You make it hard to share
Tell me you're real out there
So used to all the fun
And then you're gone

You don't know to care
You forget I'm there
You don't know to care
You forget I'm there

You don't know to

You can come with me
I'll set you free
Woouoooooh
