

# Dope Fiend

A\$H.

You know you know better  
But you just can't get enough  
You just need the pleasure  
But you just can't get enough  
Go a little higher  
But you just can't get enough  
Now you feel the pressure  
But you just can't get enough

Yea I saw you, browsing like safari  
But you just can't get enough  
Yea I caught you, wild life if the party  
But you just can't get enough  
Dope fiend

You don't care who knows it  
But you just can't get enough  
You might even post it  
But you just can't get enough  
No apologies none necessary  
We don't mind a thing we're just coolin'  
Don't lose your composure  
But you just can't get enough

Yea I saw you, browsing like safari  
But you just can't get enough  
Yea I caught you, wild life if the party  
But you just can't get enough  
Dope fiend

Don't be shamed that's that's what we came to find  
I've been searching for you quite some time

I've been looking for you  
I've been looking for you

Don't be in denial  
So coyote wild  
Go a little higher  
Stay a little while

Yea I saw you, browsing like safari  
But you just can't get enough  
Yea I caught you, wild life if the party  
But you just can't get enough  
Dope Fiend

Don't be shamed that's that's what we came to find  
I've been searching for you quite some time

Don't be shamed that's that's what we came to find  
I've been searching for you quite some time
